

What Seattle Proposition 1 Will Do For You

We all deserve to get where we need to go safely and efficiently. For the last 18 years, Seattle has relied on voter-approved levies to help build and maintain our city's critical transportation infrastructure. The current levy is about to expire, and **Seattle Prop. 1 is an 8-year, renewed investment in our city's roads, bridges, sidewalks, and transit.**

Across Seattle, Prop. 1 will:

- Repave 15 of our most heavily used roads
- Make our city's most dangerous roads safer
- Repair and upgrade our bridges to extend their life
- Fill potholes within 72 hours
- Build 350 blocks of new sidewalks
- Create safe routes for kids to walk and bike to school
- Speed up buses and improve lighting, visibility, and safety at bus stops
- Improve access to light rail
- Enhance safety on dedicated bike lanes
- Plant thousands of new street trees

In Downtown, Capitol Hill, & Central Seattle, Prop. 1 will:

- Prepare for the 2026 FIFA Men's World Cup with downtown activation projects
- Repave James Street to support high-volume traffic and bus service, including upgrades for sidewalks, traffic signals, and pedestrian safety
- Make the Route 3, Route 4, and Route 8 buses more reliable with targeted street improvements
- Add a protected bike lane to connect Capitol Hill and Beacon Hill on 12th Ave from E Madison to the Jose Rizal Bridge
- Improve access to light rail at Judkins Park (opening 2025)
- Repair sidewalks, improve crossings, repave, and invest in transit along 23rd Ave E / 24th Ave E
- Prevent injuries and fatalities at Lakeside Ave and Lake Washington Blvd
- And much more!

Vote YES on Seattle Prop. 1 to make it safer and easier to get around *your* community!
